EXPERIENCE

Fresher

I am a quick learner who can easily adapt to your company's skills and continuously enhance my knowledge and abilities.

EDUCATION

Terf's Academy College of Arts and Science, Tirupur— *Bachelor of Computer Applications (BCA)*

2023-2026

Currently pursuing my 2nd year in the BCA program.

PROJECTS

Tradequarry

Developed a frontend project during my first semester, **Tradequarry**, designed to help beginners easily learn about trading. The platform assists users in finding the best trading apps, understanding market trends, and analyzing charts for informed decision-making.

Multiple Frontend Projects

Created a minimum of 30 projects throughout my last three semesters, showcasing expertise in frontend development, designing, editing and responsive web applications

GITHUB PROFILE

<https://github.com/madhumithasivaraman>

SKILLS

Skilled in video editing using Canva, CapCut, and Photoshop to enhance visual content.

Proficient in frontend development using HTML, CSS, and JavaScript

Strong foundation in Python, C++, C and java

AWARDS

Awarded second place in a college-level coding competition

Actively participating in online challenges like CodeChef, HackerRank, TCS codevita.

Earned a gold badge for demonstrating Python skills on the HackerRank platform.

Earned various certifications by taking tests and completing courses

LANGUAGES

English and Tamil
